A. Sikich, 2024 Annual Comprehensive Audit Report

Nick Bava provided a summary of the Park District's annual audit draft. A final draft of the audit is pending due to unverified data related to a separate audit being conducted for the Illinois Municipal Retirement Fund (IMRF). President Altpeter inquired if supplemental documentation would be provided to which Mr. Bava replied in the negative, citing that there are no major changes to the current draft expected.

Mr. Bava summarized different operating funds within the Park District, and their performance over the year from January to December of 2024.

**IV. PUBLIC COMMENT**

A. Mr. Matulyauskas expressed appreciation for the contributions of the Park District to the Lisle community before summarizing a number of health conditions from which he has recently suffered. Mr. Matulyauskas stated that he believes that these conditions were caused and/or exacerbated by stress that he states is due to the proximity of pickleball courts to his home. He said players do not experience the noise the same way as neighbors, because neighbors experience it as relentless audio assault. Mr. Matulyauskas stated that the issue he wishes to address is complex and requires empathetic and in-depth discussion in order to find a solution. He thanked Vice President Tapella for meeting with him previously and expressed a desire to have a constructive discourse with the other commissioners going forward. Mr. Matulyauskas

then mentioned the proposal that would be brought forward this evening regarding an electronic gate, but said that will not address the daytime noise and suggested those funds be redirected to real evidence-based solutions, and that he is currently having discussions with Mayor Mullen and the Village of Lisle Trustees and asked the commissioners to talk to them and to find a solution together.

A. Abbeywood Park Pickleball Courts – discussion and consensus

President Altpeter briefly discussed the cost of installing an automatic locking gate to the courts that would prohibit use outside of park's standard operating hours. Director Garvy noted that the Park District has not received any recent complaints regarding play happening outside of those hours. Vice President Tapella expressed that she does not view the gate as a necessary expenditure at this time due to the lack of complaints regarding use of the courts outside of standard operating hours. She proposed delaying discussion until, or if, the Park District begins to see an increase in complaints. Commissioners Nadeau and Pereira agreed with Vice President Tapella's reasoning, and Commissioner Pereira added that he does not believe a gate would be an ultimate solution to the problem at hand and would rather keep that money for other possible remedies. Commissioner Wessel also agreed. President Altpeter thanked staff for their efforts on researching the gate and the board will not be directing staff to pursue it further.

President Altpeter described seeing a decrease in court usage at Abbeywood Park since the completion of the new courts at Tate Woods Park – stating that she believes current use is mostly from residents within the Abbeywood community because she often does not see vehicles parked there while the courts are being used. She said the park district has moved all programs from Abbeywood Park, reduced hours of operation, and other concessions and that she now feels it is a minimally used park but it is also enjoyed by the residents of that active lifestyle community. Vice President Tapella agreed with the points President Altpeter made and added moving lessons from that neighborhood park has been largely successful and that taking the time to realize that has been time well spent. She said she agrees with President Altpeter that

use has decreased, but said it is still being used, which she said was wonderful because it is now being used how that park is intended to be used, by walkers and local residents. She said she does not think the park district needs to make a change in the rules or regulations and would like to open discussion regarding encouraging patrons of the courts to make use of quiet paddles and balls, knowing we can't enforce that, but we can provide information to those using that area to encourage their use. Commissioner Nadeau agreed that providing patrons with information on such products could be looked into and referenced using the Pathfinder to communicate it. She expressed concern that taking more active measures could set a precedent for dissatisfied citizens to push for stricter regulations for any programming/noise within parks and therefore lead to an influx of requests to Park District administration.

Commissioner Pereira inquired about any issues arising between pickleball and tennis court usage. A brief discussion followed with the point being made that there have been no observable issues between patrons who are looking for tennis activities versus pickleball. Commissioner Wessel pointed out that, per the District's Strategic Master Plan, Lisle has an overabundance of tennis courts compared to the community's desire for such facilities at the time. Commissioner Nadeau inquired about noise complaints due to pickleball in the Arbor View and Tate Woods subdivisions, to which the response was that none have been received. Commissioner Wessel then stated that he agrees with Vice President Tapella, and believes that having relevant signage for Abbeywood Park, specifically, regarding education about "quiet" play equipment would be helpful.

Director Garvy explained that he and Superintendent Pratscher met with Mr. and Mrs. Matulyauskas the day before to discuss viable options to address the issue of noise within the park. He explained that at the end of the discussion all parties agreed that a locked gate would not do much to lessen the noise, but that promoting the use of "quiet" equipment would be the best step to take. Director Garvy briefly spoke about some of the available equipment but stated the issue has been the inability to enforce such a rule, and he reported the Matulyauskas' agreed that enforcement, either by the park district or Lisle Police, is not possible as neither organization is willing to allocate resources to do so. He said in discussion with the neighbors, all agreed that larger, more conspicuous signage would help, including providing on-site resources explaining what quiet equipment actually is, via a QR code as an example. Director Garvy reported that he, Superintendent Pratscher, and the Matulyauskas' agreed that signage stating the courts at Abbeywood are recommended for "quiet" play only, with additional signage providing information relevant to quiet equipment resources, such as a web page that can be updated periodically as more equipment becomes certified or endorsed as quiet by the association, is desirable. He said he and Superintendent Pratscher were surprised that the Matulyauskas' were willing to go the route of not requiring their use, but rather only strongly recommending it. He said part of the park district's frustration has been that we have done things they have asked us to do in the past, and they keep coming back wanting more. He stated that in the meeting with the neighbors the day before, he asked what makes the park district think that if we do this today, that they won't come back at some point saying that's not enough and they want more, as that has been the pattern. He said Vitas said we can hold him accountable, and that if we do this, people will eventually honor it. President Altpeter emphasized we will not be making policy, but only recommendations. Director Garvy agreed with Commissioner Nadeau using the Green Trails Pathfinder could be beneficial too. He said that for the first time in a long time, he felt positive with the outcome of the meeting with the neighbors and that it felt like we were all on the same page. He said he hoped that would have been mentioned during public comment as a matter of public record.

Commissioner Pereira inquired about the possibility of selling quiet balls as a point-of-sale item at the Recreation Center front desk for a discounted rate to encourage patrons to use them, saying we were willing to spend a significant amount of money on a lock. Director Garvy noted

that other communities have done similar things, and Vice President Tapella shared her agreement with the idea. President Altpeter expressed some concern that making recreation cost prohibitive and restricting people's ability to recreate how they want. Director Garvy said he and Superintendent Pratscher will speak again with the neighbors about signage and strategy as discussed, and that this will put an end to this issue. He said based on this conversation and meeting with the neighbors the day before, he feels we got to that point and he will expect that next month we will hear the support from the neighbors.

President Altpeter expressed trepidation due to what she viewed in an overall difference in tone between Mr. Matulyauskas' public comment and Director Garvy's presentation of the discussion held the day before. Vice President Tapella stated her belief that verbiage for any potential signage should be a collaboration between staff and the Park District's attorney's, with resident input being sought only after initial drafts have been created. She also expressed dissatisfaction with the idea of labeling the courts at Abbeywood Park as quiet courts instead of neighborhood courts. She specifically wanted to avoid verbiage that could be construed by the public as a change of policy or regulation in the courts' functions.

Director Garvy said staff will connect again with the neighbors to confirm our mutual understanding of what we can expect of each other, and before we buy balls or order a sign or create a web page, we will come back to get the board's and neighbors' stamp of approval. President Altpeter stated staff has spent an exorbitant amount of time on this issue, she does not have a lot of hope that this is going to be what the neighbors wanted, they declined that a year ago, and she didn't hear tonight what makes us believe they will accept it this time. She said she sees this as the last effort, said there were some good solutions discussed tonight, and that the park district is making an effort in the community to make a change at the Abbeywood Park courts.

The Board decided to have further discussion until the July meeting pending follow up discussions between staff and the neighbors of Abbeywood Park.

## **IX. NEW BUSINESS**

A. Commissioner Pereira moved to authorize the execution of a contract with Hitchcock Design Group for architectural services for the Community Park South Shelter and Pathway Connection project in the amount of \$37,800.00. Commissioner Nadeau seconded the motion.

Motion Passed.

## **X. STAFF REPORTS**

A. Village of Lisle East Ogden Avenue TIF District and Lincoln Avenue (Route 53) TIF District

Director Garvy stated that based on discussion with legal counsel and the Village of Lisle, all requirements have been met for the purpose of a Joint Review Board. Director Garvy briefly discussed possible intergovernmental agreements to mitigate some of the associated costs/impacts that will be created by the TIF on other taxing districts. The Board of Park Commissioners reached a majority consensus that the Park District can cast an affirmative vote that both TIFs meet the required criteria. Commissioner Pereira expressed some concern regarding realistic expectations for the Lincoln Avenue (Route 53) TIF but stated that he is all right with taking the next step. Director Garvy mentioned that such concerns can be addressed later,

but that they fall outside of the purview of the Joint Review Board. Vice President Tapella offered a summary of the Park District's role in the TIF process.

#### B. River bend Golf Club Restaurant – update

Superintendent Pratscher summarized the first full week of operations for the new River Bend Canteen, Bar, and Event Rental Space – weather is suspected to have impacted overall usage of the new facilities, but there have been patrons staying after golf to enjoy beverages at the bar. Superintendent Pratscher mentioned that the event space has been utilized for two rentals and appears to be a popular option with competitive pricing and easy access. Moving forward, Superintendent Pratscher believes that the rental space can be available all year, regardless of the golf club itself being closed for the off-season. Staff members are undergoing training to meet with all Food Department safety regulations so that the restaurant can begin to provide food operations in addition to the current bar offerings. President Altpeter expressed gratitude to Superintendent Pratscher for his work in turning the space from a full restaurant into its current operational set-up. She also extended thanks to Joe Kawalek, for his flexibility and willingness to take on new tasks outside of his position's original scope.

A brief discussion regarding liquor licensing was held. Commissioner Pereira asked if rentals are required to purchase alcoholic beverages through the Park District. Superintendent Pratscher described what is included in a rental package, including beverages, and what patrons are required to provide in terms of catering.

Director Garvy and President Altpeter also thanked Superintendent Cerutti for his and his team's work on converting the restaurant space. Superintendent Pratscher acknowledged Superintendent Silver's contributions in making sure that all IT and technology needs for the space were also taken care of.

The Park District also invested in the Village of Winfield's bond with the amount of \$317,000.00, earning 5% with an expected return of funds on September 1, 2025.

#### C. Commissioners' Reports

## MEMO

To: Board of Park Commissioners  
From: Dan Garvy, Director of Parks & Recreation  
Scott Silver, Superintendent of Finance, IT & Golf Operations  
Date: July 10, 2025  
Re: Audit Services Renewal

Sikich provided the District with a proposal for auditing services for fiscal years 2025 through 2029 in the amounts of \$20,485; \$21,305; \$22,160; \$23,045; and \$23,970 respectively. This reflects a 4% annual increase.

Over the course of our previous contracts with Sikich and through the multiple sets of eyes they have assigned to our audit, they have been professional, detail oriented and communicative. They have been a trusted partner and terrific resource, even for the occasional non-audit questions Superintendent Silver or I pose to them throughout the year. Their internal controls ensure an unbiased approach to our operations through their engagement team of staff accountants, senior accountants and engagement managers, some of which vary year by year to maintain a fresh perspective.

As you will see in their attached proposal, their experience, reputation and professionalism are top notch. They have performed impeccably for the District – they are challenging yet cooperative and continue to provide invaluable service to staff, the Park Board and the Lisle Park District as a whole.

Recommended Motion: Move to authorize the execution of a contract with Sikich, LLC for auditing services for fiscal years 2025 through 2029 in the amounts of \$20,485; \$21,305; \$22,160; \$23,045; and \$23,970 respectively.

Thank you.

The background of the cover features a photograph of a classical building with columns and an American flag flying. A large teal rectangle is overlaid on the left side, and a dark blue rectangle is at the bottom.

# OUR CLIENT SERVICE APPROACH

## COLLABORATION IS A TWO-WAY STREET

We work closely with you from the start. From setting expectations to executing the plan and preparing for next year, communication and collaboration are always front and center.

- Our approach starts with obtaining an understanding of your expectations and your operational and strategic objectives. We will design our approach to exceed your expectations.
- We utilize our experience to ensure that your engagement is tailored to the risks inherent in your organization and the environment in which you operate, with eyes on identifying financial and operational improvements.
- Communication is key to collaboration; we will seek to avoid any surprises and keep you apprised of our progress and any findings on a timely basis.

## OUR AUDIT APPROACH

At the core of our business, we have been and always will be an organization with a focused audit methodology supported by a robust technology platform. We're proud to boast the latest technological resources, world-class subject-matter experts and sought-after credentials to support your audit team.

Measure twice and cut once. Sound planning on the front-end of the engagement allows our team to plan and create efficiencies that benefit you. Our multi-faceted approach will begin prior to your year-end with certain preliminary and planning procedures, such as an internal controls assessment and documentation, tests of controls and audit correspondence. The conclusion of our planning efforts will be the development of detailed audit programs for all significant elements of the financial statements, as well as significant compliance matters. Our detailed audit programs will include procedures designed to obtain maximum audit efficiencies. The second phase, our substantive fieldwork, will be performed after year-end on a schedule that is flexible to your needs and reporting requirements.

Sikich's audit approach includes, but is not limited to, the following procedures:

- Audit plan development
- Determination of materiality
- Audit risk evaluation
- Interviews with management to provide information for detailed documentation of the internal control structure
- Interviews and analysis of audit evidence to identify and assess risks that may result in material misstatement due to fraud
- Measurement of accounting presentation and compliance reporting by identifying and focusing on areas sensitive to organizations like the District
- Performance of testing to evaluate your organization's internal control structure
- Confirmation of various accounts, performance of substantive testing and analytical procedures
- Performance of additional testing, as necessary

### AUDIT STANDARDS

The objective of our audit is to issue an unmodified opinion on the District's governmental activities, each major fund and the aggregate remaining fund information that collectively comprise the District's basic financial statements. The audit will be conducted in accordance with generally accepted auditing standards as set forth by the American Institute of Certified Public Accountants, and, if necessary, generally accepted government auditing standards issued by the United States Government Accountability Office (GAO, 2018), the Single Audit Act of 1996 and the Uniform Guidance. We will issue an opinion on the basic financial statements and will subject the combining and individual fund financial statements and schedules and any other supplementary information to the auditing procedures applied in our audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America and will provide an opinion on it in relation to the financial statements as a whole.

In addition, we will apply certain limited procedures to the Required Supplementary Information. These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We will not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Wherever possible, we will utilize your schedules to maximize efficiencies and contain audit costs. We request that the District provide us with the basic information required for our audit.

## PRACTICAL AND CONSTRUCTIVE MANAGEMENT LETTER COMMENTS

We believe the management letter is an important part of the engagement, and we encourage all members of our engagement team to give thoughtful consideration toward developing constructive comments within the constraints of the overall engagement. Our policies regarding management letters adhere to the Professional Standards of the AICPA. If significant deficiencies and material weaknesses in internal controls are noted during the audit, they are required to be communicated in writing to those charged with governance. Items of an immaterial nature (i.e., clerical problems, minor procedures or reporting problems, etc.) are communicated to management. In both cases, we adhere to a strict company policy that all comments and recommendations are discussed in preliminary form with appropriate personnel prior to their communication. This allows for clarification of misunderstandings, miscommunication or compensating controls or factors which may be in place.

## QUALITY CONTROL

At Sikich, we are committed to providing the highest quality audits in the industry. The District can be assured of receiving the highest level of quality and ethical professional services. Quality control is so important to us that our company has been a member of the Private Companies Practice Section of the Division for CPA Firms of the AICPA since our formation in 1982. As such, we have voluntarily submitted our audit and accounting practice to quality control reviews of our compliance with professional standards as established by the AICPA and, more recently, by the United States Government Accountability Office, for more than 30 years. Since our company's inception, our CPA firm and its predecessor parties have received unmodified ("pass") peer review reports. As required by professional standards, we undergo a peer review every three years. A "pass" peer review report is the highest level of recognition conferred upon a public accounting firm for its quality control systems. Also, we go beyond the external reviews and maintain strong internal reviews of procedures and processes with oversight by our Quality Assurance Committee. Please refer to the Exhibits section for a copy of our most recent peer review which included a review of specific government engagements since this accounts for a significant segment of our practice.

In addition, our local government reports have been reviewed by numerous federal and state oversight bodies and professional organizations. Sikich has not been the subject of any disciplinary action or inquiry during the past five years. Sikich is a member of the AICPA's Governmental Audit Quality Center (GAQC), which is a company-based voluntary membership center designed to promote the importance of quality governmental audits and the value of these audits to purchasers of government audit services. As a member of the GAQC, Sikich has access to key information and comprehensive resources that we use to help ensure our compliance with appropriate professional standards and laws and regulations that affect our audits. Through our membership in the GAQC, we also adhere to membership requirements designed to enhance the quality of our audit practice.

### EXPERIENCE IN GOVERNMENT OPERATIONS

Because of our large, diverse client base and our ability to attract talent from a variety of professional backgrounds, Sikich has an established reputation as one of the leading providers of professional services governmental entities. Our team of professionals specializes in the management, operations and financing of general-purpose local governments. This focus and our exemplary reputation assure the District the highest quality work and the most cost-effective delivery of services.

# OUR PROACTIVE **APPROACH**

ONE OF OUR STRENGTHS AT SIKICH IS OUR NEED TO BE PROACTIVE. WE FIND POTENTIAL ISSUES BEFORE YOU HAVE TO WORRY ABOUT THEM, BECAUSE WE'RE READY WITH A SOLUTION.

## INITIATIVE FOR CUSTOMIZED SOLUTIONS

One-on-one, you will receive customized solutions based on your unique needs, and only your unique needs. You will find that achieving financial stability and growth, as well as uncovering new opportunities to improve performance, is possible through the strategies that Sikich experts will recommend and on which they will educate you.

After a more thorough review of your operations and local government-specific matters, we may uncover other opportunities. As part of our ongoing service and commitment to the District we keep you informed of regulatory changes and best practices to ensure we identify crucial opportunities that will benefit the District.

## INITIATIVE FOR YOUR SATISFACTION

The District success is built upon the quality services and value you feel you receive from Sikich, which is why we will continually gauge your satisfaction to enhance our relationship. At various checkpoints during the engagement, a Sikich representative will meet with you to discuss how satisfied you have been with our services, our team and the value we provide. Areas stressed during these meetings will include:

- What can we do to make our services more valuable to you?
- What specific part of our service exceeded your expectations?
- In which areas do you feel we need improvement?
- Do you feel like a valued client of the company?
- What is your vision for the District?

# SCOPE OF SERVICES

NOW FOR THE PART THAT YOU'VE BEEN WAITING FOR! WE'LL BRING YOU THE TEAM AND THE PROCESS TO DELIVER RESULTS, AIMING TO EXCEED EXPECTATIONS EVERY STEP OF THE WAY. **OUR SCOPE AND FEES ARE CLEAR, UP-FRONT AND ALWAYS FAIR.**

We are proposing to provide the following services to the District consistent with prior years:

- Audit of basic financial statements of the District for the fiscal year ending December 31, 2025 through 2029.
- Preparation of fifteen (15) bound copies and an electronic copy (pdf) of the annual comprehensive financial report (report cover, introductory section, MD&A and certain statistical data to be provided by the District);
- Preparation of fifteen (15) bound copies and an electronic copy (pdf) of the management letter for the District, communicating any material weaknesses and significant deficiencies found during the audit and our recommendations for improvement;
- Preparation of one (1) bound copies and an electronic copy (pdf) of the Comptroller's Annual Financial Report;
- Assist the District in submitting its annual comprehensive financial report to the Certificate of Achievement for Excellence in Financial Reporting program;
- Retain workpapers for seven (7) years in accordance with company standards;
- Reporting to the Board of Commissioners in accordance with generally accepted auditing standards; and
- Exit conference(s) with District Officials to present the completed audit and related materials.

## IDENTIFICATION OF POTENTIAL AUDIT PROBLEMS

Our company's approach to resolving any problems that arise during the audit is the same as our overall approach to the audit—professionalism. Professionalism in performing the audit is the cornerstone to our philosophy during all phases of the audit. Any problems encountered during the audit, except for irregularities and illegal acts, will be discussed and documented with the appropriate individuals as defined in our professional standards. The timing of this discussion will provide the District with ample time to rectify any situations that may otherwise result in the issuance of a qualified audit opinion. If Irregularities and illegal acts are detected or we become aware of such acts, we will communicate, in writing, to the appropriate level as defined in our professional standards.

Our company's philosophy on additional fees and/or billings is based on an understanding between Sikich and the client of the scope of the work to be performed. We have proposed a "not-to-exceed fee" for the audit, the scope and timing of which was specified by the District. The billings for the audit would not exceed this fee unless the District specifically requests that the scope of the engagement be expanded and the District and Sikich reach a mutual agreement, in writing, as to the expanded scope of the engagement and the fee, if any, for the expanded scope.

Sikich will comply with all relevant rules and regulations of authoritative bodies and the AICPA Code of Professional Conduct regarding access to our working papers and audit documentation. Reasonable requests for access will not be denied.

## FEE PROPOSAL

### PROPOSAL COST SUMMARY

	2025	2026	2027	2028	2029
District Audit	\$ 20,485	\$ 21,305	\$ 22,160	\$ 23,045	\$ 23,970

### ADDITIONAL CONSIDERATIONS

If a single audit or GAGAS opinion (for State of Illinois GATA compliance) is required, we will reach a mutual agreement, in writing, as to the expanded scope and fee associated with these services and the related deliverables.

The fees proposed do not include the cost of assisting with implementing any new GASB pronouncements. If the District specifically requests this type of service, Sikich and the District would reach a mutual agreement, in writing, as to the expanded scope and fee associated with these services.

These fees assume that the District will provide the auditors with electronic copies of adjusted trial balances by individual funds, a year-to-date general ledger with details of postings to all accounts, subsidiary ledgers that agree or are reconciled to the general ledger and will prepare certain schedules of account analysis and confirmations of account balances.

We invoice our clients on a monthly basis as services are provided. Payments for all services are due in accordance with applicable state statutes.

# ADDITIONAL RESOURCES & SERVICES

**WITH A COMPREHENSIVE SUITE OF SERVICES,** OUR AREAS OF EXPERTISE ARE OFTENTIMES COMPLEMENTARY OF ONE ANOTHER. HOW ELSE CAN WE HELP YOU STRENGTHEN THE DISTRICT?

Many times, the challenges for which you enlist Sikich's help may be faced more effectively by integrating several of our services. Take a look at what we offer and talk to your engagement principal about how these services may complement what you are already seeking.

## DISPUTE ADVISORY

Disputes of any kind or size can be difficult to handle on your own. For example, what would happen if you began suspecting employee fraud within your organization? A dispute advisory expert can handle every aspect, from insurance claim preparation and being the liaison with law authorities, to creating a fraud prevention program and improving your organization's internal controls.

## HUMAN RESOURCES

Your people are a large part of what makes up your organization. Recruiting, training and retaining employees are vital parts of ensuring your organization continues to provide only the best for your clients. With services such as recruiting and onboarding, compensation and compliance, employee benefits and more, you can better understand what will keep your employees happy and productive.

## THE AGENCY AT SIKICH

Position your brand for optimal coverage across your client base, industry and target audience all while telling a captivating story that builds relationships and enhances customer retention. From design and website development to media coverage and product launches, your organization deserves ample opportunity to boost brand awareness and reach a wide range of future, long-term consumers.

## NOT-FOR-PROFIT SERVICES

Funding challenges, increased demand from stakeholders and changing trends and policies can make it difficult for not-for-profit organizations to reach their goals. For those common challenges and others more specific to your organization, you need a professional services partner with an Industry-dedicated team to deliver the accounting, advisory and technology services that will help you work toward your mission.

## TECHNOLOGY: IT SERVICES

Staying ahead of, or even simply keeping up with, continually changing and complex technology developments can be challenging. Business management software, cloud solutions, strategic information technology and IT consulting can all drive your organization toward increased productivity and profits—if implemented the right way.

## TECHNOLOGY: SECURITY AND COMPLIANCE

Keeping your organization safe from data breaches and other information security concerns is critical, especially given the vast number of organizations that have been compromised in the last couple of years. Understand where the vulnerabilities in your network lie by obtaining independent, unbiased and technically qualified security assessments—from penetration testing to forensic analyses.

## WORKFORCE RISK MANAGEMENT

Reduce your risk while protecting your people and enhancing the quality and performance of your workplace by creating or improving proactive violence prevention policies, programs and training. Add a layer of assurance and readiness through active threat management capabilities – both internally and through urgent expert threat support.

Re: Abbeywood Park Pickleball Courts

At the park board meeting of June 19, the issue of whether the park district wants to consider additional measures at Abbeywood Park to address complaints from the neighbors regarding noise emanating from the pickleball courts was discussed again. After that evening's discussion, it was agreed to move forward with the plan I had reported was agreed upon at a meeting Superintendent Pratscher and I had with the Matulyauskas' in the park the day before. While I briefly explained that Superintendent Pratscher and I had met with Mr. and Mrs. Matulyauskas in the park on June 18 at last month's board meeting, I wanted to provide the summary below as a matter of record.

*Jon and I met with Vitas and Margarita Matulyauskas at Abbeywood Park on June 18, the day before our June 19 board meeting. Vitas apologized for all his past conduct, saying he knows he has been extremely frustrated and that his actions have not always been reasonable. He asked if we could start anew. For conversation's sake, we agreed.*

*We discussed the alternative to installing an automatic locking gate, which is establishing Abbeywood Park's pickleball courts as "quiet courts." This should not be news to any of you since this is what they have been asking over the past several months. You will recall that the park district agreed last June to work with the neighbors to establish some reasonable expectations in converting those courts to quiet courts, and Vitas quickly withdrew that request with the reasoning that players will not play with special equipment. Today their outlook is different, and they would like another opportunity to work together with the park district to set some mutually agreeable parameters on the use of the courts.*

*Jon and I stated we do not support creating a quiet ball policy for those courts, and that neither the park district nor the village will devote resources to enforcing the use of quiet balls (the Gamma Librarian ball is what had been referenced). Vitas stated he doesn't think policy is needed if larger, more conspicuous signage was installed on the court fencing, if we provide on-site information on the Gamma Librarian ball, and if we promote Tate Woods Park and Community Park as having courts without recommended limitations. He said that over time, he believes that most people will be willing to play with quiet balls, or they will go elsewhere. This approach does not require the park district to change its current position on the use of those courts or spend \$5,000 on a gate we know will not satisfy the neighbors. This approach only emphasizes the park district's current request to be mindful of the neighbors, and it provides additional information to park patrons.*

*Jon and I both responded that we do not believe that most people will honor a larger sign, and that this approach will only lead to Vitas and Margarita either calling the police, emailing the park district demanding further action, or approaching and confronting players who in fact ignore the signage. Vitas stated he is willing to be held accountable should we be able to establish mutually agreeable expectations, which is essentially what was mentioned in the previous paragraph. I said that I don't expect anyone to believe that he will accept this as the last effort if it doesn't produce his*

*desired results, and that he will be back with more demands. Vitas reiterated that he is willing to be held accountable.*

*The park district was willing to take this approach last June, but it was aborted due to Vitas' change of opinion at that time. We reminded him of that and he agreed that he is willing to work on this together and will keep his expectations in check. He again stated he is willing to be held accountable.*

*At the end of the conversation, we got to a point where they were not requesting anything different than what we have already done: encourage the use of quiet equipment at Abbeywood Park. The approach being asked is to expand and clarify that message through larger signage, to include information on the quiet balls, and promote Tate Woods Park and Community Park as other sites without the recommended use of special equipment. Vitas also indicated that he planned to attend the June 19 Park Board meeting and make a public comment requesting that this approach be considered and implemented.*

Mr. and Mrs. Matulyauskas did in fact attend last month's meeting and Vitas spoke during public comment. Unfortunately, he did not mention our meeting the day before. Instead, he explained in detail some of the health problems he has experienced, spoke against the idea of the automatic locking gate that was on last month's agenda, suggested those funds be put towards evidence-based solutions, and asked that the park board and village trustees find a solution together. Again, no mention of what Superintendent Pratscher and I thought was finally a productive exchange from just the day before.

Regardless, staff put together a draft sign and created a document that explains what a pickleball-specific web page on the Lisle Park District's website would include. The sign would be a 5' x 10' perforated banner that would be prominently displayed on the upper northeast facing corner of the perimeter fencing, clearly visible from Abbeywood Drive and anyone approaching the courts. It will include a QR code that will bring one to a new pickleball specific web page on the park district's website. The sign at the entrance gate will be updated to include similar language with the same QR code. For the web page, there will be links to different resources on the USA Pickleball Association website, including up to date information on specific paddles, paddle sleeves and covers, and balls that they endorse as quiet category equipment. This includes the Gamma Librarian ball, as well as numerous paddles, paddle sleeves, and another ball. This is all very much in line with what the neighbors agreed to in the park on June 18 and direction the park board gave to staff on June 19.

However, Mr. Matulyauskas has continued to ask for meetings with individual commissioners, both immediately after the June 19 meeting and again on July 9. The reasoning he gave for meeting with individual commissioners in a recent email was to discuss "reasonable solutions" and that his concerns "remain unresolved." When the draft sign and web page content was shared, he replied that it was "a good start." In our experience, this is similar to his responses to other efforts the park district has made, at his request, and only leads to more action being sought. He also said his goal in meeting with individual commissioners is to demonstrate the problem is pickleball noise, not him. I believe the Park Board has acknowledged the impact he says the noise has on his and his families lives through your support of previous efforts to limit play and reduce the frequency of the bothersome noise, as well as the latest efforts presented last month and again here.

You will recall some of you recommended the park district purchase several Gamma Librarian balls and make them available for resale at a discounted price at the Recreation Center. Staff have discussed this opportunity, and we respectfully request you reconsider. Because there are quite a few options now categorized by the USA Pickleball Association as "quiet" equipment, including paddles, paddle sleeves, and at least one other ball (and a third ball reportedly being added in the near future), players have multiple options from which to choose. These Librarian balls are readily available through Target, Amazon, and elsewhere.

Staff is willing to move forward with the consensus the park board provided at your June 19 meeting, reflected in the following draft signage and web page content, pending any further discussion and park board direction.

(Pending board consensus, this rendering will be refined by District marketing staff to make it more visually appealing)

Re: Teen Takeover Emergency Response Plan

You have likely heard of the recent issue of "teen takeovers" occurring in the suburbs over the past several weeks. Most recently, on the afternoon of Sunday, July 6<sup>th</sup>, one occurred at Glen Ellyn Park District's Sunset Pool, which included hundreds of teens entering without paying, drinking alcohol, using cannabis and setting off fireworks inside the facility.

I first heard of this on the morning of Monday, July 7<sup>th</sup> when Sergeant Taylor of the Lisle Police Department informed me and offered his assistance in addressing any concerns. I immediately shared our conversation with Superintendent Pratscher, who in turn promptly worked with Assistant Superintendent Mejicano and Manager Witter to develop an emergency response plan should a "teen takeover" occur at Sea Lion Aquatic Park. Throughout the week, our staff shared updates on the plan's development, and I had regular check-ins with Sgt. Taylor to review our progress. I also had a conversation with Officer McKay on Wednesday evening at the Community Park concert, which provided additional perspective.

On the morning of July 10, we held an in-service with pool managers to review the plan in detail, go over any questions or concerns, etc. Our pool managers were poised, attentive, interactive and ultimately confident in their ability to follow the plan and manage the incident, knowing the police are fully aware and involved.

Of course I am proud that we worked together quickly and collaboratively in putting our plan together, and this is another shining example of the terrific intergovernmental relationship and seamless cooperation we enjoy with the police. I also want to call particular attention to our Recreation and Marketing Department administration for initiating the development of our plan immediately and without prompting. While we hope not to experience a teen takeover, in the unfortunate case we do, both our Sea Lion Aquatic Park staff and the Lisle Police have a plan to manage it and hopefully minimize any disruption. It also helps that the Police Department is literally within 2,000 feet of our facility.

- June was the first full month that the revamped River Bend Clubhouse Canteen and Bar was operational. Staff have continued to learn and tweak operations to best serve the golf course customers and the public. As of July 7, a new point of sale software (LINGA) was launched to improve efficiency and overall customer experience. Staff have worked hard to evolve services to meet the needs of this new operation.
- The rental venue (former dining room) at the River Bend Clubhouse has already gained a great deal of attention from prospective renters. Since our first rental on May 31, there have been twelve other booked rentals, with multiple inquiries taking place on a weekly basis. Staff anticipates ongoing interest from the public and a steady stream of corresponding rental revenue as things progress.

- For the 4<sup>th</sup> year in a row, the annual kickoff to the Summer Entertainment Concert Series took place on July 3, with back-to-back concerts and fireworks. The event continues to be extremely popular, with people showing up as early as 8am to claim their spots around the stage area. As the primary fundraiser for the Lisle Partners for Parks Foundation, we are pleased to report that beverage sales produced \$15,892 on July 3 and \$1,485 on the first Wednesday concert on July 9 for a total of \$17,377 raised in beverage sales in the first two concert dates. These concert events continue to be a strong example of intergovernmental cooperation between the District and Village of Lisle and Lisle Woodridge Fire Protection District, in addition to tremendous teamwork from staff, Lisle Partners for Parks, and other volunteers.
- Registration for the EDGE program's 2025-2026 school year opened on July 1.
- The Lisle Teens with Character group took part in *Nature Play For All* at the Morton Arboretum, the Lisle Women's Club Garden Gait event, and participated in a pantry distribution event for People's Resource.

- The Sea Lion Aquatic Park team earned an overall facility score of "4-stars" on an unannounced external audit conducted by StarGuard ELITE in June, with many individual staff receiving 5-stars for their performance. There will be additional third-party audits conducted by StarGuard in July and August.
- Sea Lion Aquatic Park hosted the first Member Appreciation Night of the season on June 29 with an estimated 250 members in attendance. The next Appreciation Night will be held on July 27.
- Programming at Sea Lion Aquatic Park began in early June. There were a total of 147 swim lesson participants, 40 swim team participants, 13 Aqua Zumba participants, and 17 aquacise participants.
- Gentle Learning Summer Camp continues to welcome over 45 children each week. During "Barnyard Palooza" week, we took a walk to the Parks garage to see the tractors and big trucks and were treated to a tractor hayride around Community Park! In the coming weeks, preschoolers will make and taste food from around the world in "Culinary Creations" camp. We'll also explore outer space and make our own rocket launch during "Galaxy Explorers" week. At the end of July, we'll celebrate "Winter in July" with snowballs and all things winter holidays!
- Gentle Learning Summer Camp is excited to have an average of 15 children stay with us each afternoon for our Kids Day Out club after camp each Tuesday, Wednesday, and Thursday afternoon until 3pm!
- There are currently 52 (+4 from last month) senior group exercise punch card holders, 22 group exercise punch card holders, and 7 personal training punch card holders.
- Manager Breihan called bingo for the annual Triad Summer Picnic.
- 387 seniors participated in 12 in-house programs and 3 trips in June.
- 551 seniors joined us for drop-in programs in June, and 10 items were borrowed from the medical supply lending closet.
- The Senior Center collected 13 pounds of supplies and \$250 in donations from the Lisle Train Show for Operation Support Our Troops.
- Our lending closet was mentioned in Positively Naperville; it was noted that we were looking for an Iceman Cold Therapy Machine. We have since received several donations of these expensive machines that we are now able to loan out to people recovering from knee replacement surgery.

# SEASPAR spotlight

JOHN LEE

This month, we are thrilled to shine the SEASPAR Spotlight on a true team player and all-around joy to be with — John Lee! John is an enthusiastic participant in many SEASPAR programs, from weekly teen groups and special events to Spartans Athletics. Wherever he goes, John brings positivity, humor, and a can-do attitude that lifts the entire group.

One of John's standout qualities is how naturally he embraces being part of a team. Whether he's on the field, in a room full of new faces, or joining a social activity, he's always eager to engage, make friends, and help others feel included. He doesn't just show up — he shows up with heart, ready to participate and make every moment count.

John is also known for his incredible flexibility and sense of humor. At one program, when a change of plans caught him off guard, he and a staff member

came up with the perfect phrase to lighten the moment: "We're just going to switch things up a bit!" Now, it's his signature line — always said with a smile and a sparkle in his eye. It's a small but perfect example of the way John helps others roll with the punches and keep the good vibes going.

What makes John so special is not just how much he enjoys each experience, but how much he adds to it. His kindness, willingness to try new things, and genuine love for connecting with others make him a cherished part of our SEASPAR family. He's a reminder of why we do what we do — because every moment, every laugh, and every connection matters.

John, thank you for being such a bright light in our programs. Your energy, adaptability, and warmth inspire everyone around you. Keep switching things up and spreading that magic wherever you go — we're all better because you're on the team.

## SUMMER KICK-OFF: A SPLASH OF SUNSHINE, SMILES... AND A STORM!

June 8 began as a picture-perfect day for SEASPAR's highly anticipated Summer Kick-Off. With blue skies above and sunshine all around, families arrived at Ty Warner Park ready to celebrate the start of the season.

The day began with a warm welcome and SEASPAR-branded goodie bags, filled with sponsor gifts and cheerful surprises. With bags in hand, guests found their spot in the park, reconnected with friends, and geared up for an afternoon of fun.

Our team and their families work hard at setting the stage—filling the park with the scent of sizzling hot dogs, the sparkle of snow cones and cotton candy, and the happy pop-pop-pop of fresh popcorn. A live DJ kept the energy high with music, dancing, and nonstop smiles.

There was something for everyone: airbrushed tattoos, wearable balloon creations, photo magnet keepsakes, and giveaways from our generous sponsors. Handheld fans helped guests stay cool while they enjoyed the activities and summer sunshine.

One of the most heartfelt moments of the day was a quick farewell tribute to Cathy Morava, led by SEASPAR Board Member Bob Fleck of the Westmont Park District. Surrounded by friends, families, and staff, we applauded Cathy's extraordinary 42 years of service and the lasting legacy she leaves behind.

A special thank-you goes to the sponsors who made this event possible: Edward Jones, Dell Rhea's Chicken Basket, Dynamic Lynks, Kids Plus Dentistry, Lemont Park District, Main Event, and Suburban Door Check & Lock Service. Your support brought joy, connection, and countless memories to life.

But—as every great summer story has a twist—Just as the celebration was hitting its peak, a fast-moving thunderstorm rolled in. In classic SEASPAR fashion, our team sprang into action, packing up the entire event in just 15 minutes to keep everyone safe and smiling.

Even with an early wrap-up, this year's Summer Kick-Off was a shining example of what SEASPAR is all about: community, inclusion, and joyful moments that matter—rain or shine.

## SEASPAR ATHLETES SHINE AT SPECIAL OLYMPICS ILLINOIS SUMMER GAMES

SEASPAR was proud to be represented by 22 athletes at the 2025 Special Olympics Illinois Summer Games, held June 14–16 at Illinois State University. This prestigious three-day event featured five sports, with SEASPAR athletes competing in four — and together, they earned an impressive 21 gold medals.

The Games kicked off Friday afternoon, with Ryan McGuire competing in the 1500M and securing SEASPAR's first gold of the weekend. That evening, athletes participated in the Opening Ceremony, which included a parade and a drone light show.

On Saturday, the momentum continued as Ryan returned to win his second gold medal in the 3000M. Other standout performances included:

- Samantha Wagner and Kendall Wright – Gold in Athletics (Track & Field), long jump
- Connor Mulcahy – Gold in Swimming, 100M freestyle and 50M breaststroke
- Nello Rotelli – Gold in Swimming, 25M backstroke
- Chris Tegeler – Gold in Swimming, 50M backstroke

This was not only a weekend of medals — it was a weekend of camaraderie, growth, and pride. Our athletes gave their all, and their dedication truly paid off. Congratulations to all who competed and to the coaches and families who supported them every step of the way.

## ON THE MOVE: SUMMER ADVENTURES HAVE BEGUN!

Summer kicked off with big smiles and even bigger adventures across SEASPAR programs! As the season gets rolling, our participants are already diving into exciting activities that build friendships, confidence, and unforgettable memories.

Our Afternoon Adventurers have been off to a fantastic start — recently visiting The Morton Arboretum, where they explored the grounds and snapped incredible photos alongside the vibrant Vivid Sculptures exhibit. Horseback Riding Lessons are also in full swing, offering participants a unique opportunity to build trust, improve coordination, and enjoy therapeutic connection with these gentle animals.

On the social front, our Saturday Night Socialites cheered their hearts out at a Kane County Cougars baseball game, soaking in the summer fun and stadium energy.

And as for our special events, it was all about team spirit during an exciting Cubs game night — a perfect evening of ballpark vibes, community, and memories under the lights.

SEASPAR's summer is off to a strong start — with more fun, learning, and connection on the horizon!

## RAISING THE BAR WITH SIPS FOR SEASPAR

Last year, our Sips for SEASPAR fundraisers raised \$600—and we're just getting started! Thanks to the generosity of our community, these funds helped support SEASPAR's Financial Assistance Program, opening doors to more inclusive, empowering experiences for our participants.

This year, we're ready to raise the bar with two more Sips for SEASPAR events coming this fall and winter! Each gathering is more than just a fundraiser—it's a chance to connect, share a laugh, and celebrate what makes SEASPAR so special. Whether you're swapping stories over a seasonal brew or simply soaking in the laid-back vibes, Sips for SEASPAR is about being together, being ourselves, and building something meaningful—one cheers at a time.

We will keep you posted on future events so you can mark your calendars and bring your favorite crew. Let's toast to inclusion, adventure, and making a difference in the lives of our participants—because every sip supports a story worth telling.
