PHONE: 630.964.3410

lisleparkdistrict.org

June 3, 2024

To: Board of Park Commissioners and citizens of the Lisle Park District

The Annual Comprehensive Financial Report (ACFR) of the Lisle Park District (District) for the fiscal year ended December 31, 2023 is hereby submitted as mandated by State Statutes. This report provides a broad view of the District's financial activities for the 2023 fiscal year and its financial position at December 31, 2023. Although addressed to the elected officials and the citizens of the District, this report has a number of other users. Foremost among these other users are bondholders of the District, financial institutions, credit rating agencies, and other governmental entities.

Responsibility for both the accuracy of the information presented in the ACFR as well as the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe that the information as presented is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position of the District and the results of its operations; and that all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial affairs have been included. Because the cost of internal controls should not exceed the anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. The Management's Discussion and Analysis complements this letter and should be read in conjunction with it.

#### PROFILE OF THE PARK DISTRICT

The Lisle Park District is located 25 miles west of Chicago in DuPage County, Illinois. The Park District was incorporated in 1967 and currently serves a population of approximately 32,000 residents covering 12 square miles. While the current boundaries of the Village of Lisle encompass approximately 24,000 people, the Lisle Park District boundaries extend beyond those of the Village, serving small sections of Naperville, Woodridge, and parts of unincorporated DuPage County. The Lisle Park District is a Board-Manager form of government comprised of a 5-member elected Board of Park Commissioners whose chief executive officer is the Director of Parks and Recreation.

The District maintains 40 parks covering 379 acres. Facilities include a Recreation Center with preschool, senior center, multiple use rooms, and administrative offices; Community Fitness Center with a fitness center and three dance/fitness program rooms; one 9-hole golf course with pro shop and full service restaurant and bar; one outdoor aquatic facility; a museum site with four (4) historical structures; 31 playgrounds; 7 basketball courts; 21 tennis courts; 4 pickleball courts and numerous sports fields for baseball, softball, soccer, lacrosse and football. Through an intergovernmental agreement with Lisle Community Unit School District 202, the Park District has minimal grounds maintenance responsibilities at three active school sites, and through a lease and license agreement with the Village of Lisle, the Park District also manages and maintains the Museums at Lisle Station Park.

Appropriated amounts for the governmental funds and Enterprise Fund are adopted on the modified accrual basis, which is consistent with GAAP except for the Enterprise Fund. The appropriation is prepared by fund and object. Transfers between objects require approval of the Board of Park Commissioners. The legal level of control (i.e., the level at which expenditures may not legally exceed appropriations) is the object level for the General Fund and at the fund level for all other funds. No supplemental appropriations were made during the year. No appropriation was adopted for the Paving and Lighting Fund.

In fiscal year 2023, the District provided facilities and programs to over 14,000 registered recreation program participants and a little more than 34,000 rounds of golf at River Bend Golf Club.

A five-member Board of Park Commissioners elected for staggered four-year terms governs the District. The day-to-day administration of the District is the responsibility of the Director of Parks and Recreation. For the beginning of Fiscal Year 2023, the District employed 35 full-time staff and 299 part-time and seasonal staff throughout the years.

This report includes all the funds of the District.

The District participates in the Illinois Municipal Retirement Fund, the South East Association for Special Parks and Recreation, and the Park District Risk Management Agency. These organizations are separate governmental units because: (1) they are legally separate organized entities, (2) are fiscally independent of the District, and (3) are governed by their own boards. Audited financial statements for these organizations are not included in this report. However, such statements are available upon request from their respective business offices.

#### **LOCAL ECONOMY**

Economic Outlook. The Park District's Moody bond rating is Aa3, which indicates a strong financial position. The local economy seems to continue to gain momentum with construction planned for a new mixed-use development at the long-vacant downtown strip mall at the southeast corner of Ogden Avenue and Main Street, and immediately east of there, conceptual plans have been developed for new residential and commercial development. Long-vacant properties along the Ogden Avenue corridor continue to receive attention, as well as various infill developments throughout the District. The District was facing inflationary times with the Consumer Price Index (CPI) hitting an all-time high over the past thirty years at 7% in 2021. The CPI has been steadily declining from 7% in 2021 to 6.50% in 2022 to 3.10% in 2023. These economic conditions appear to be here to stay, and it seems unlikely that these costs will go down anytime soon. The District continues to experience increased costs across the board from minimum wage increasing to \$14 per hour to gas prices still hovering around \$4 a gallon to construction projects coming in higher than anticipated. We are still projecting the cost of future construction protects to continue to rise. From 2000 census information, the estimated employed work force in the Lisle Park District is 16,479 or 58% of the population 16 years and older (ESRI Business Information Solutions). The employed work force in the State of Illinois was 47% and the Nation was 46% of the population 16 years and over. Of the employed work force in the Lisle Park District, 76.8 % are engaged in white collar professions such as management, business, financial and sales and the balance of the work force is engaged in service (10.5%) and blue-collar professions (12.7%). The high white collar work force is reflective of the district's high educational attainment and high average household income. The figures above have likely changed considering the current economic climate.

From the early 1970s through the early 1990s, the district enjoyed periods of rapid land acquisition and development, extensive recreation programming growth, facility acquisition and construction, and significant growth in personnel. As the Lisle area has become built out, opportunities for growth have consisted of small in-fill developments and the occasional acquisition of a small neighborhood park. In 2011 the district moved into the Recreation Center at 1925 Ohio Street, an existing industrial facility that was purchased and renovated to accommodate program growth and facility expansion needs. The result has been a boost in program and facility use across all program categories that continue today. The recent focus of the District has been on maintaining existing facilities and other District assets, marketing District services with increased emphasis on social media and cross-promotions of programs and facilities, and seeking alternative sources of revenue. Popularity of District programs and use of District facilities remains at an all-time high.

### **MAJOR INITIATIVES**

For the Year.

The District completed its Strategic Master Plan in April when it was officially adopted by the Board of Park Commissioners. This plan serves as a roadmap to guide future resource allocation and was immediately put to motion. It revealed, among many other things, that the Lisle Park District is held in high regard by the community both in terms of park and facility quality as well as programs and services. There are also numerous recommendations for improved services and efficiencies, and staff and the Park Board will continue to prioritize them as appropriate. With a new mission of "be community focused,", a new vision of "a place where everyone belongs," and core values of "Stewardship, Inclusion, Safety, and Impact," the district is well poised to continue providing excellent leisure opportunities for years to come.

Participation in District services continued to thrive in 2023 with record registration in many areas, most notably summer camps. Staff were added to accommodate this ongoing demand, but there still remained dozens of families on wait lists. Sea Lion Aquatic Park required some moderate yet critical repairs pre-season, including the replacement of the bathhouse boiler and replacing many seals to repair leaks. Staff expect ongoing attention as major pool components continue to age and wear out. Smart boards were installed in each of the District's six preschool rooms. This has greatly enhanced the learning experience for our students and staff alike.

Capital projects continued to experience delays due to contractor shortage and supply chain challenges. Arbor View Park renovations began in 2022 but were not completed until June 2023. Similarly, planned renovations to the tennis court at Connelly Park were also delayed and are planned for Spring 2024 completion.

The District's Recreation and Marketing Department evolved roles to better align resources with the recommendations from the Strategic Master Plan. Responsibilities were redistributed to better balance workloads while also offering flexibility to explore and advance program growth, as the Strategic Master Plan reports opportunity for growth in seven of the District's ten core program areas.

The District received the Certificate of Achievement for Excellence in Financial Reporting for the eighteenth consecutive year from Government Finance Officers Association and maintained its accreditation from the Park District Risk Management Agency for the Park District's risk management program.

#### For the Future:

For 2024, the District is expected to complete 2023 capital projects and embark on those scheduled for 2024. The park district will begin significant renovations to Tate Woods Park in late spring. Through an interactive public engagement process, the new park will contain elements specifically requested by the community. Most notably, these renovations will include the addition of six (6) brand new pickleball courts, expanded parking, a new playground with poured in place rubber surfacing, picnic shelter, shade units, improved accessibility throughout, and more. The park district also plans to conduct an existing conditions analysis for Sea Lion Aquatic Park. As the facility enters its 21st season of operations, it is showing signs of deterioration. However, through a thorough analysis of its components, staff expect to strategically schedule repairs/improvements prior to system failure and facility interruption.

From the programming end, District staff's realignment of responsibilities allows for focusing on program growth and accompanying non-tax revenue growth through expanding summer camp options, early childhood and Gentle Learning Preschool opportunities, athletic leagues, adult fitness programs, and more. In late 2023, the District decided to close Community Park Fitness Center. Having had an average annual revenue shortfall of over \$30,000 for the past few years, the District can utilize that space to accommodate demand in other areas, including camps, room rentals, and more.

#### OTHER INFORMATION

<u>Independent Audit</u> – State statutes require an annual audit by independent, licensed, certified public accountants. The Park District has engaged the accounting firm of Sikich CPA LLC to perform the audit for the fiscal year ended December 31, 2023. Their unmodified opinion on the basic financial statements is included in this report.

<u>Acknowledgements</u> – This financial report was compiled through the efforts of members of the Finance Department. While the audit is prepared at one time during the year, it would not be possible without the consistent attention to the procedures and monitoring of accounts by the entire staff. The support of the Board of Park Commissioners is essential to ensure a sound financial environment in which to conduct the operations of the District.

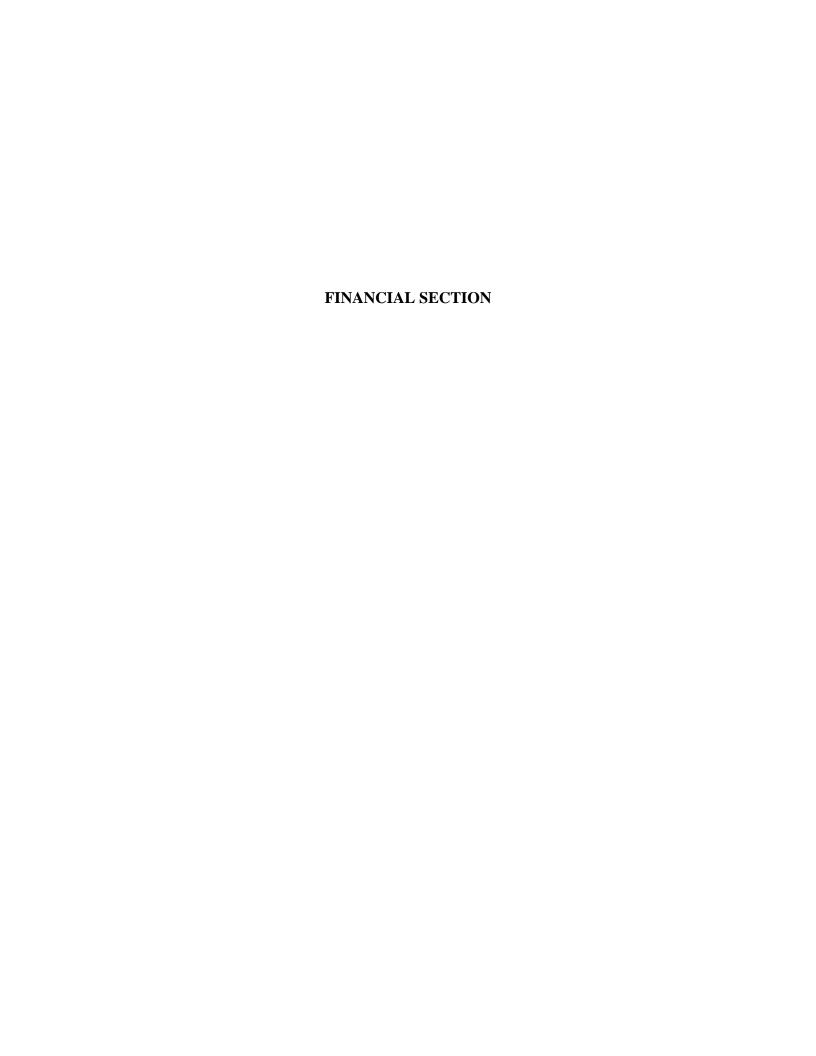

Respectfully submitted,

Dan Garvy

Director of Parks & Recreation

Scott Silver

#### INDEPENDENT AUDITOR'S REPORT

Members of the Board of Park Commissioners Lisle Park District Lisle, Illinois

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Lisle Park District, Lisle, Illinois (the District), as of and for the year ended December 31, 2023, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Lisle Park District, Lisle, Illinois as of December 31, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Change in Accounting Principle**

The District adopted GASB Statement No. 87, *Leases*, which established a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Our opinion is not modified with respect to this matter.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under these standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions.

Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
  accounting estimates made by management, as well as evaluate the overall presentation of the
  financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

#### **Other Matters**

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Sikich CPA LLC

Naperville, Illinois June 3, 2024

## LISLE PARK DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2023

As the management of the Lisle Park District (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended December 31, 2023. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which may be found on pages iv through vii of this report.

## USING THE FINANCIAL SECTION OF THIS ANNUAL COMPREHENSIVE REPORT

The District's financial statements present two kinds of statements, each with a different snapshot of the District's finances. The focus of the financial statements is on both the District as a whole (government-wide) and on the individual funds. Both perspectives (government-wide and individual fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the District's accountability.

## **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net positions changed during the most recent fiscal year. All changes in net positions are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. The Net (Expenses) Revenue shows the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities).

The governmental activities of the District include general government, park maintenance and culture and recreation. The business-type activities are the golf course and restaurant.

The government-wide financial statements can be found on pages 4 through 6 of this report.

## Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities as shown on pages 8 and 10 respectively.

The District maintains 11 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Recreation Fund, Debt Service Fund, and Capital Projects Fund all of which are considered to be "major" funds. Data from the other 7 governmental funds are combined into a single, aggregate presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in this report as shown on pages 46-54.

The District adopts an annual budget for its General Fund. A budgetary comparison schedule has been provided for the General Fund to demonstrate compliance with the budget shown on page 38.

The basic governmental fund financial statements can be found on pages 7-10 of this report.

**Proprietary Funds.** The District maintains one type of proprietary fund: enterprise. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses an enterprise fund to account for its golf course and restaurant.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Golf Course and Restaurant, which is considered to be a major fund of the District.

The basic proprietary fund financial statements can be found on pages 11 through 14 of this report.

## Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 15 through 37 of this report.

## Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide benefits to its employees. Required supplementary information can be found on pages 38 through 44 of this report.

Combining and individual fund statements and schedules can be found on pages 45 through 54 of this report.

## Financial Analysis of the District as a Whole

Beyond presenting current-year financial information in the government-wide and major individual fund formats, the District also presents comparative information from the prior years in the Management's Discussion and Analysis. By doing so, the District believes that it is providing the best means of analyzing its financial condition and position as of December 31, 2023.

#### **GOVERNMENT-WIDE STATEMENTS**

#### **Net Position**

The following table reflects the condensed Statement of Net Position.

Table 1 Statement of Net Position As of December 31, 2023 and 2022 (In thousands)

		nmental	I			ess-type vities				otal vities	
	2023		2022		2023		2022		2023		2022

Unrestricted (deficit)	 6,105		5,206		960		518		7,065		5,724
Total Net Position	\$ 37,066	\$	35,451	\$	4,995	\$	4,615	\$	42,061	\$	40,066

The District's net position for the governmental activities increased \$1.615 million from \$35,451 to \$37,066 million during 2023. The District had an favorable increase in current assets totaling \$.149 million. It is made up of an increase in cash and investments of \$.561 million and a decrease in property tax receivable of \$.417 million and an increase in accounts receivable and deposits on account of \$.005 million. The District had an unfavorable decrease in noncurrent assets totaling \$.141 million. The major change came from the increase in net pension asset of \$.543 million. The District had an decrease in capital assets totaling \$.477 million due to the depreciation outpacing additions. The District had a net decrease in deferred outflows of \$.207 million consisting of an decrease in resources (pension) of \$.207 million and an immaterial change in unamortized loss of on refunding.

The liabilities had a favorable decrease of \$1.026 million. It is comprised of a favorable decrease in accounts payable of \$.098 million, no change in accrued payroll, an unfavorable decrease in unearned revenue of \$.051 million. The noncurrent liabilities had a favorable decrease of debt payable within a year of \$.671 million and a favorable decrease in long term debt in the amount of \$.307 million. The section on deferred inflows of resources (pensions, leases and property taxes) had a net decrease of \$.581 million in which the pension made up \$.144 million, leases \$.020 million and .417 million property taxes.

The net position for business-type activities increased by \$.380 million. That is broken down between a favorable increase of \$.472 million in total assets which is related to the increase in cash and investments of .431 million and increase in inventory of .003 million. The increase of .038 million in capital assets is due to additions outpacing depreciation expense. Total liabilities had a unfavorable increase of \$.092 million which is comprised of an decrease in current accounts payables, accrued payroll and unearned revenue in the amount of \$.007 million and an increase noncurrent liabilities short- and/or long-term of .099 million related to the new GASB regulations in regards to leases. Currently, the Enterprise Fund has no short-term or long-term bonded debt outstanding. The section on deferred inflows of resources (pensions and property taxes) had no activity.

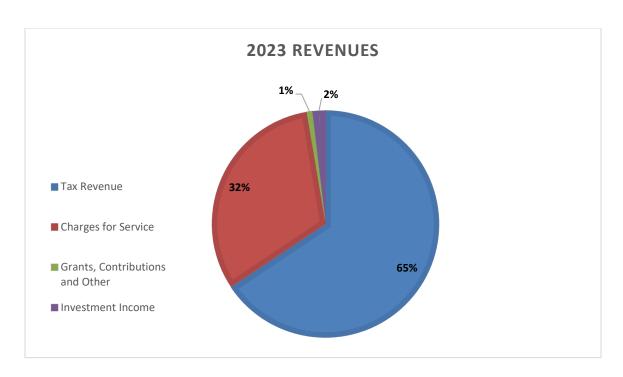

For more detailed information, see the Statement of Net Position on page 4.

### **Statement of Activities**

The following table summarizes the revenue and expenses of the District's activities.

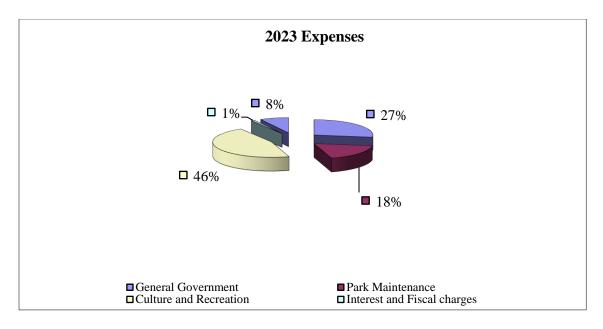

Table 2

In 2023, the revenue from government activities decreased by \$.455 million from 2022. The District's largest single source of revenue is property taxes. It decreased by \$.662 million to \$6.691 million. Property taxes support governmental activities and include the District's contribution to the Illinois Municipal Retirement Fund, Social Security Fund Insurance Fund, Audit Fund and Special Recreation Fund. Between 2022 and 2023, property tax revenues decreased by 9%. The District's property tax rate changed from .5165 in 2022 to .4542 in 2023, an decrease of .0623, related to the impact of the tax cap limitation and Public Act 93-0601, which provided for the District's debt service extension base tax levy to be recalculated. Excluding the impact of this new legislation, the District's remaining tax rate of .3437 increased .0045 or 1.33%. The Park District's EAV of \$1,429,657,357 increased by \$51.9 million, or 3.76896%, due to property reassessments. The major revenue component of the "charges for services" classification is fees from the District's users. User fee revenue increased \$.338 million from \$1.756 million in 2022 to \$2.094 million in 2023 due to increased programming offered as discussed later in this analysis. In addition, the District's miscellaneous income decreased by \$.016 million. Investment income increased by \$.122 million and there was an decrease in Grants and Contributions by \$.051 million.

The major revenue component for Business-Type activities is "charges for services" classification is fees from the District's users. User fee revenue was \$1.143 million in 2023, compared with \$988 million in 2022. The increase in revenue reflects an increase in usage and increase in fees of the District's programs and facilities.

The District's Governmental Activities expenses amounted to a total of \$7.439 million in 2023 vs 7.546 million in 2022. This reflects a decrease of \$.107 million or 1.42% over the prior year.

The District is continuing to face increased expenditures across the board ranging from minimum wage, to supplies to maintenance contracts to construction costs. The expenditure for General Government increased by .126 million, Culture and Recreation by \$.172 million while Parks Maintenance decreased by .413 million. In addition, interest and fiscal charges increased by \$.008 million or 11.11% from 2022.

The District's Business-Type Activities expenses amounted to a total of \$.763 million in 2023 vs. \$.642 million in 2022. This reflects an increase of 18.85% over the prior year. This is primarily due to the district golf course's steady operations capital projects and the minimum wage increase.

For more detailed information, see the Statement of Activities on pages 5-6.

#### **Individual Funds**

The District's Fund Balances had an overall increase of \$634,098 from \$6,049,319 in 2022 to \$6,683,417 in 2023. Some of the key factors that drove the increase were:

- 1. The District saw an 18.00% increase in Program Fees.
- 2. The investment income also increased over 300% due to rising interest rates.
- 3. The District's EAV increased by 3.76896% to \$1,429,657,357 due to increasing property tax values which led to an increase in tax revenue and;
- 4. Continued efforts by Staff to minimize expenditures in tough economic conditions in which CPI closed the year at 3.4%.

.

The General Fund Balance increased by \$124,024 from \$1,657,319 in 2022 compared to \$1,781,343 in 2023. The Fund would have had an increase of \$1,124,024 had it not transferred \$1,000,000 to fund the Capital Fund. The District is slightly over its goal of having six months of operating expenditures in the Fund Balance. The Recreation Fund Balance increased by \$65,859 from \$1,389,169 in 2022 to \$1,455,028 in 2023. The Debt Service Fund had a small net increase in the fund balance of \$5,174 from \$63,658 in 2022 to \$68,832 in 2023. The Capital Projects Fund Balance increased by \$200,262 from \$1,736,157 in 2022 to \$1,936,419 in 2023. It would have decreased by \$812,220 had it not received a transfer from the General Fund. The fund balance is used to purchase and maintain vehicles, equipment, land, and other capital items and planned capital outlay expenditures exceeded inflows during the year.

## **Capital Assets**

The following schedule reflects the District's capital asset balances, net of accumulated depreciation as of December 31, 2023.

Table 3 Capital Assets As of December 31, 2023 and 2022 (In thousands)

		nmenta vities	I		ss-type vities		Total Activities				
	 2023		2022	2023		2022		2023		2022	
Land and improvements	\$ 21,806	\$	21,829	\$ 2,610	\$	2,614	\$	24,416	\$	24,443	
Buildings	10,138		10,460	1,341		1,387		11,479		11,847	
Equipment	362		426	83		96		445		522	
Vehicles	259		326					259		326	
Right to use Lease Equipment	 -		-	 100		-		100		-	
Net Capital Assets	\$ 32,565	\$	33,041	\$ 4,134	\$	4,097	\$	36,699	\$	37,138	

At year-end, the District's investment in capital assets for both its governmental and business-type activities was \$36.699 million (net of accumulated depreciation and amortization). This represents a decrease of .01% compared to last year.

Major capital projects that were completed in 2023 include the following:

- Completed the renovations at Arbor View Park, which included two pickleball courts, one tennis court, new playground with poured in place rubber surfacing, picnic shelter, ½ basketball court, outdoor fitness stations, and new landscaping.
- Completed cart path renovations and bunker restoration at River Bend Golf Club.
- Replaced failed boilers at Sea Lion Aquatic Park's bathhouse and replaced numerous link seals in the aquatic park's mechanical room.
- Began annual hard surface court renovations at Connelly Park. Unpredictable weather and contractor availability prevented project completion, which is planned for Spring 2024.
- Purchased replacement playground equipment and poured in place rubber surfacing for Beau Bien Park, the installation of which is scheduled for early 2024.
- Completed annual asphalt pathway paving maintenance at numerous park sites.

For more information on the District's capital assets, see Note 3 in the notes to the financial statements.

## **Long-Term Debt**

As of December 31, 2023, the District had a total of \$3.660 million in bonded indebtedness outstanding along with no net pension liability to report for IMRF as the District is now reporting a net pension asset. The total is composed of \$3.660 million in general obligation bonds backed by the full faith and credit of the District. The debt service on the general obligation bonds is paid with property taxes.

As of 2022, the District had a net pension liability of \$.047 million. The pension balances change due to the return on investments, contributions, and actuarial calculations such as life expectancy and, as of 2023, the District is now reporting a net pension asset of \$.543 million.

As of December 31, 2023, the District is reporting a lease payable of \$.099 million within business-type activities. This lease payable, for the right-to-use golf cart vehicles, is recorded in accordance with recent GASB standards.

The table below summarizes the District's bonded and similar indebtedness.

Table 4
Long Term Obligations
As of December 31, 2022 and 2021

		nmental vities		ess-type vities	To	otal
	2023	2022	2023	2022	2023	2022
General obligation bonds Lease Payable Net Pension Liability	\$ 3,660,000 - -	\$ 4,591,000 - 47,090	\$ - 99,264 -	\$ - - -	\$ 3,660,000 99,264 -	\$ 4,591,000 - 47,090
Total	\$ 3,660,000	\$ 4,638,090	\$ 99,264	\$ -	\$ 3,759,264	\$ 4,638,090

The District computation of legal debt margin is subject to a statutory debt limitation of 2.875% of equalized assessed valuation with referendum and .575% of equalized assessed valuation without referendum. The schedule is shown on page 78. The District's general obligation bonds have been given a credit rating of Aa3 (The Aa3 rating are judged to be high quality by all standards. They are generally known as high-grade obligations. It demonstrates very strong creditworthiness relative to other US municipal or tax-exempt issuers or issues) by Moody's Ratings Services.

For more detailed information on the District's bonded and similar indebtedness, see Note 4 in the notes to the financial statements.

## **Budget Variances**

In 2023, the District's General Fund budgeted to have an increase in fund balance of \$135,216. In actuality, the District had an increase of \$1,124,024 before a one-time transfer of \$1,000,000 to the Capital Fund resulting in an increase in fund balance of \$107,699 or an unfavorable variance of \$11,192.

The increase before the transfer was a combination of the actual revenues coming in slightly over budgeted revenues by \$185,826 with the majority of this was due to replacement taxes and investment income. Actual expenditures came in under the budgeted expenditures in the amount of \$254,694 due to the inability to hire summer help and employee benefits and contractual services.

#### **Economic Factors**

Commercial and residential development is very little, if any. The District's equalized assessed valuation (EAV) increased 3.76896% from \$1,377,731,169 to \$1,429,657,357. A good sign for the district is that the unemployment rate is only 3.00% in Du Page County.

The CPI has decreased to 3.40% in December 2023 compared to 6.50% in December 2022. Currently, the federal reserve seems to have inflation in check right now. We do anticipate a few rate drops (75 to 100 basis points) in 2024. With this said, the District will have to rely heavily on continued issuances of the debt, program fees and property taxes in order to maintain the current level of service.

## CONTACTING THE DISTICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Scott M. Silver, Superintendent of Finance, Lisle Park District, 1925 Ohio Street, Lisle, Illinois 60532.

### NOTES TO FINANCIAL STATEMENTS

December 31, 2023

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Lisle Park District (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

# a. Financial Reporting Entity

The District was established in 1967. The District is duly organized and existing under the provisions of the laws of the State of Illinois and is operating under the provisions of the Park District Code of the State of Illinois, approved July 8, 1947 and all laws amendatory thereto. The District operates under the commissioner-director form of government (an elected Board of five District Commissioners) and provides a variety of recreational facilities, programs and services. The District (primary government) includes all funds of its governmental operations and its component units based on financial accountability. Financial accountability includes appointment of the entity's governing body, imposition of will and fiscal dependency. The accompanying financial statements include only those funds of the District, as there are no other organizations for which it has financial accountability.

Based on the criteria of GASB Statement No 61, *The Financial Reporting Entity: Omnibus - an Amendment of GASB Statements No. 14 and No. 34*, the District does not have any component units. The Partners for Parks Foundation, a potential component unit, is not significant to the District and, therefore, has been excluded from its reporting entity.

# b. Fund Accounting

The District uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

The District's funds are classified into the following categories: governmental and proprietary.

# b. Fund Accounting (Continued)

Governmental funds are used to account for all or most of the District's general activities, including the collection and disbursement of restricted or committed monies (special revenue funds), the funds restricted, committed or assigned for the acquisition or construction of capital assets (capital projects funds) and the funds restricted, committed or assigned for the servicing of long-term debt (debt service funds). The General (Corporate) Fund is used to account for all activities of the District not accounted for in some other fund.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the District (internal service funds).

### c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the District. The effect of material interfund activity other than interfund sales and services has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on user fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

c. Government-Wide and Fund Financial Statements (Continued)

The District reports the following major governmental funds:

The General Fund accounts for the resources traditionally associated with general government, except those accounted for in another fund.

The Recreation Fund accounts for the operations of the District's recreational programs and park maintenance. Financing is provided from an annual restricted property tax levy and fees charged for programs and activities.

The Debt Service Fund accounts for the accumulation of funds that are restricted or assigned for repayment of various general obligations bond issues where repayment is financed by an annual property tax levy.

The Capital Projects Fund accounts for financial resources restricted, committed or assigned for the acquisition or construction of major capital expenditures not being financed by the proprietary fund.

The District reports the following major proprietary fund:

The River Bend Golf Course Fund accounts for the activities of the District which operate the River Bend Golf Course and the golf pro shop.

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues and expenses are directly attributable to the operation of the proprietary funds. Non-operating revenue/expenses are incidental to the operations of these funds.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

or soon enough thereafter to be used to pay liabilities of the current period (60 days). The District recognizes property taxes when they become both measurable and available in the year intended to finance. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as expenditures become due.

Those revenues susceptible to accrual are property taxes, replacement taxes and interest on investments.

The District reports unavailable/unearned/deferred revenue on its financial statements. Unavailable/unearned/deferred revenues arise when potential revenue does not meet the measurable and available or period intended to finance criteria for recognition in the current period for governmental funds or earned or period intended to finance at the government-wide level. Unavailable/unearned/deferred revenues also arise when resources are received by the District before it has legal claim to them as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when revenue recognition criteria are met, or when the District has a legal claim to the resources by meeting all eligibility requirements, the liability or deferred inflow of resources for unavailable/unearned/deferred revenue is removed from the financial statements and revenue is recognized.

### e. Deposits and Investments

For purposes of reporting cash flows, the District considers all cash on hand, demand deposits and highly liquid investments with a maturity of three months or less when purchased to be cash and cash equivalents.

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit and other nonparticipating investments are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

# f. Property Taxes

The District's property taxes are required to be levied by ordinance. A certified copy of the levy ordinance must be filed with the county clerk no later than the last Tuesday in December of each year. Taxes are levied in December of the current year and attach as a lien as of January 1 of the current year. Taxes are due and collectible one-half in June and one-half in September of the following year.

# g. Inventories

Inventories are valued at cost using the first-in/first-out (FIFO) method.

# h. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., bike trails, paths, roads, bridges and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000. Such assets are reported at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Property, plant and equipment is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Land improvements	20
Buildings	50
Vehicles	8
Machinery and equipment	15-20
Intangible assets	6

Intangible assets represent the District's right-to-use a leased asset. These intangible assets, as defined by GASB Statement No. 87, *Leases*, are for lease contracts of nonfinancial assets including golf carts.

# i. Long-Term Obligations

In the government-wide financial statements and the proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount.

# i. Long-Term Obligations (Continued)

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures/expenses.

# j. Compensated Absences

Full-time employees begin to earn and are eligible for vacation after completing a three-month introductory period with the District. Employees in their first year of service earn vacation time on a prorated basis. Vacation leave is provided to full-time employees at the rate of ten days for each year of service through five years, 15 days following five full years of employment and 20 days following ten full years of employment. Vacation days are awarded on the first day of the year. Earned vacation time may not be carried over into the following year unless the Director approves an exception.

Full-time employees are granted six paid sick days each calendar year. Employees in the first year of service are granted sick days at the rate of one per month after successful completion of their introductory period, up to a maximum of six for the year. Starting the sixth year of calendar service, employees are granted ten sick days per year. Employees must carry over all unused sick days up to the establishment of a bank of 30 days. Employees have the option of either carrying over all unused sick days for that calendar year up until employees establish a total of 90 accumulated and banked sick days or employees may be paid for 50% of unused sick days for that calendar year. Following the establishment of a bank of 90 sick days, employees will be paid 50% of unused sick days for that calendar year with the other 50% being credited to their Illinois Municipal Retirement Fund (IMRF). Employees are not paid for unused or accumulated and banked sick days when their employment is severed with the District. However, employees who retire under the IMRF plan have all unused and unpaid sick days applied to IMRF service credit for retirement purposes to a maximum of 240 days.

### k. Fund Balances/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or legally or contractually required to be maintained intact.

### k. Fund Balances/Net Position (Continued)

Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities or from enabling legislation adopted by the District. Committed fund balance is constrained by formal actions of the District's Board of Park Commissioners, which is considered the District's highest level of decision-making authority. Formal actions include ordinances approved by the Board of Park Commissioners. Assigned fund balance represents amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the District's Superintendent of Finance, as specified in the fund balance policy. Any residual fund balance in the General Fund, including fund balance targets and any deficit fund balance of any other governmental fund is reported as unassigned. It is the policy of the District to maintain minimum unassigned fund balance in the General Fund to fund operations for a period of at least four months.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending the District considers committed funds to be expended first followed by assigned funds and then unassigned funds.

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net investment in capital assets represents the book value of capital assets less any outstanding long-term debt issued to acquire or construct the capital assets.

None of the restricted net position or restricted fund balance results from enabling legislation adopted by the District.

### 1. Interfund Transactions

Interfund service transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except interfund service transactions and reimbursements, are reported as transfers.

# m. Interfund Receivables/Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

### n. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

### o. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities and deferred inflows and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

### 2. CASH AND INVESTMENTS

The District maintains a cash pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements as "cash and investments."

# a. Permitted Deposits and Investments

The District's investment policy permits the District to invest in: bonds, notes, certificates of indebtedness, treasury bills or other securities which are guaranteed by the full faith and credit of the United States of America as to principal and interest, bonds, notes debentures or similar obligations of the agencies of the United States of America; interest-bearing savings accounts, certificates of deposit, time deposits or

# 2. CASH AND INVESTMENTS (Continued)

# a. Permitted Deposits and Investments (Continued)

other investment constituting direct obligations of a bank as defined by the Illinois Banking Act; short-term obligations (maturing within 180 days of dates of purchase) of corporations with assets exceeding \$500 million (such obligations must be rated at the time of purchase as AAA by at least two standard rating services); money market mutual funds registered under the Investment Company Act of 1940 which invest only in bonds, notes, certificates of indebtedness, treasury bills and other securities which are guaranteed by the full faith and credit of the United States of America as to principal and interest and agrees to repurchase such obligations; state and local government obligations; Illinois Park District Liquid Asset Fund or a fund managed, operated and administered by a bank and other securities as allowed by the Illinois Public Funds Investment Act. Investments in Illinois Park District Liquid Asset Fund (the Funds) are valued at the Funds share price, the price for which the investment could be sold.

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objective of the policy is safety (preservation of capital and protection of investment principal), liquidity and yield.

# b. Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the District's deposits may not be returned to it. The District's investment policy requires pledging of collateral with a fair value at 110% of all bank balances in excess of federal depository insurance with the collateral held by a third party in the name of the District. As of December 31, 2023, \$127,797 of the District's deposits were uncollateralized.

#### c. Investments

As of December 31, 2023, the District had the following investments subject to interest rate risk:

			Less					Mo	re
	Fa	air Value	than 1		1-5	6-10		than	10
Negotiable certificates of deposit	\$	102,014	\$	_	\$ 102,014	\$	_	\$	_
TOTAL	\$	102,014	\$	-	\$ 102,014	\$	-	\$	_

# 2. CASH AND INVESTMENTS (Continued)

### c. Investments (Continued)

The District categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The District had the following recurring fair value measurements as of December 31, 2023: negotiable certificates of deposit of \$102,014 are significant other observable outputs and are part of a limited secondary market and are valued using quoted matrix pricing models (Level 2 inputs).

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the District limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and maximizing yields for funds not needed for operations. The investment policy limits the maturity for invested operating funds to one year from purchase and invested capital funds to three years from purchase.

The District limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in negotiable certificates of deposit. The negotiable certificates of deposits are not rated. Illinois Park District Liquid Asset Fund is rated AAA by Standard & Poor's.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the District will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the District's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by the District or third party acting as the District's agent separate from where the investment was purchased. The Illinois Park District Liquid Asset Fund and any other money market mutual funds are not subject to custodial credit risk for investments.

Concentration of credit risk is the risk that the District has a high percentage of its investments in one type of investment. At December 31, 2023, the District had its portfolio invested in the Illinois Park District Liquid Asset Fund, certificates of deposit and deposits with financial institutions. The Illinois Park District Liquid Asset Fund is a money market mutual funds registered under the Investment Company Act of 1940, and thus are in accordance with the District's investment policy, which only

# 2. CASH AND INVESTMENTS (Continued)

# c. Investments (Continued)

limits investments in any one bank and any one corporate debt security to 10% of the overall portfolio and investments in mortgage backed securities to 30% of the overall portfolio.

In addition, the investment policy prohibits investments in derivatives (including collateralized mortgage obligations (CMOs) and repurchase agreements).

# 3. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2023 was as follows:

	Beginning Balances	Increases	Increases Decreases		Ending Balances
GOVERNMENTAL ACTIVITIES Capital assets not being depreciated					
Land	\$ 18,825,440	\$ -	\$	_	\$ 18,825,440

						_						
TOTAL	\$	3,660,000	\$	428,127	\$	4,088,127						

# d. Leases

The District entered into a lease arrangement for the right-to-use golf carts and the lease commenced on January 1, 2023. Payments of \$4,988 are due monthly installments, during the months of May to September, through September 10, 2027. Total intangible right-to-use assets acquired under this agreement are \$123,933.

Fiscal Year Ending		Leases	S		
December 31,	Prir	ncipal	Interest		
2024 2025 2026 2027	\$	24,728 24,783 24,847 24,906	214 159 95 35		
TOTAL	\$	99,264 \$	503		

#### 5. INDIVIDUAL FUND DISCLOSURES

#### a. Transfers

The composition of interfund transfers during the year is as follows:

Fund	Transfers In	Transfers Out			
General Fund Capital Projects Fund Nonmajor Funds	\$ 48,288 1,000,000	\$ 1,000,000 48,288			
TOTAL	\$ 1,048,288	\$ 1,048,288			

The General Fund transferred \$1,000,000 to the Capital Projects Fund for capital expenditures. This transfer will not be repaid.

The Liability Insurance Fund (Nonmajor Fund) transferred \$48,288 to the General Fund to reclassify the Intergovernmental Personnel Benefit Cooperative terminal reserve balance. This transfer will not be repaid.

#### 6. RISK MANAGEMENT

Park District Risk Management Agency

The District is exposed to various risks related to torts; theft of, damage to and destruction of assets; errors and omissions; employee health; injuries to employees; and net income losses. Employee health is covered by third party indemnity contracts. The District is a member of the Park District Risk Management Agency (PDRMA), a risk management pool of park and forest preserve districts and special recreation associations through which property, general liability, automobile liability, crime, boiler and machinery, public officials' and workers' compensation coverage is provided in excess of specified limits for the members, acting as a single insurable unit. Settled claims have not exceeded coverage in the current or prior two fiscal years.

In the event losses exceeded the per occurrence self-insured and reinsurance limit, the District would be liable for the excess amount. PDRMA's Board of Directors evaluates the aggregate self-insured limit annually.

As a member of PDRMA, the District is represented on the Property/Casualty Program Council and the Membership Assembly and is entitled to one vote on each. The relationship between the District and PDRMA is governed by a contract and by-laws that have been adopted by resolution of the District's governing body.

# **6.** RISK MANAGEMENT (Continued)

Park District Risk Management Agency (Continued)

The District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, to cooperate with PDRMA, its claims administrator and attorneys in claims investigation and settlement and to follow risk management procedures as outlined by PDRMA.

Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Program Council. PDRMA also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and necessary loss reduction and prevention procedures to be followed by the members.

Since 96% of PDRMA's liabilities are reserves for losses and loss adjustment expenses which are based on an actuarial estimate of the ultimate losses incurred, the member balances are adjusted annually as more recent loss information becomes available.

Complete financial statements for PDRMA can be obtained from PDRMA's administration offices at 2033 Burlington Avenue, Lisle, Illinois 60532.

Intergovernmental Personnel Benefit Cooperative

The District participates in the Intergovernmental Personnel Benefit Cooperative (IPBC). IPBC is a public entity risk pool established in 1979 by certain units of local government in Illinois to administer some or all of the personnel benefit programs (primarily medical, dental and life insurance coverage) offered by these members to their officers and employees and to the officers and employees of certain other governmental, quasi governmental and nonprofit public service entities. Management consists of a Board of Directors comprised of one appointed representative from each member. The officers of IPBC are chosen by the Board of Directors from among their membership. The District does not exercise any control over the activities of IPBC beyond its representation on the Board of Directors.

IPBC acts as an administrative agency to receive, process and pay such claims as may come within the benefit program of each member. Through IPBC, the District offers both a PPO plan and an HMO plan.

For those employees enrolled in the PPO plan, the District is responsible for the first \$35,000 in claims for each individual employee participant every claim year. The members of IPBC share claims (for each individual employee) between \$35,000 and \$125,000.

# **6.** RISK MANAGEMENT (Continued)

Intergovernmental Personnel Benefit Cooperative (Continued)

IPBC maintains stop-loss insurance to cover claims in excess of \$125,000. Approximately 70% of the District's employees are PPO participants.

The HMO plan is also self-insured through a special arrangement. Members of IPBC pay for fixed costs of capitation and administration and then fund for claims not covered under the capitation fee. This plan is fully pooled and the District is not individually rated based on claims experience. All members of the IPBC pay the same rates based on plan design choices. Approximately 30% of the District's employees are HMO participants.

The District makes payments to IPBC monthly based on its participation in the plan. The rates per individual participant are determined annually based on each member's prior experience within the pool and projected future claims. This rate also includes a provision for the cost of excess insurance purchased by IPBC. The District makes monthly payments to IPBC for administration of the plan. The District has reported their terminal reserve net of deficit of other accounts as of June 30, 2023 (most recent available) of \$53,265.

#### 7. EMPLOYEE RETIREMENT SYSTEMS

# Illinois Municipal Retirement Fund

The District's defined benefit pension plan (the Plan), provides retirement, disability, annual cost of living adjustments and death benefits to plan members and beneficiaries. IMRF is an agent multiple-employer pension plan that acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the Plan that can only be amended by the Illinois General Assembly. IMRF issues a publicly available financial report that includes financial statements and supplementary information for the Plan as a whole but not by individual employer. That report may be obtained at <a href="www.imrf.org">www.imrf.org</a> or by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

# Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The Plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Illinois Municipal Retirement Fund (Continued)

Plan Membership

At December 31, 2023, IMRF membership consisted of:

Inactive employees or their beneficiaries currently receiving	
benefits	60
Inactive employees entitled to but not yet receiving benefits	88
Active employees	35
TOTAL	183

### Benefits

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

# Contributions

Employees participating in IMRF are required to contribute 4.50% of their annual covered salary. The member rate is established by state statute. The District is required to contribute at an actuarially determined rate. The employer contribution requirements are established and may be amended by the IMRF Board of Trustees. During the year ended December 31, 2023, the District's required contribution was 3.87% of covered payroll.

<u>Illinois Municipal Retirement Fund</u> (Continued)

**Actuarial Assumptions** 

The District's net pension liability (asset) was measured as of December 31, 2023 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

Actuarial valuation date December 31, 2023

Actuarial cost method Entry-age normal

Assumptions

Inflation 2.25%

Salary increases 2.85% to 13.75%

Interest rate 7.25%

Asset valuation method Fair value

For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 108.00%) and Female (adjusted 106.40%) tables and future mortality improvements projected using scale MP-2021. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables and future mortality improvements projected using scale MP-2021. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables and future mortality improvements projected using scale MP-2021.

# Discount Rate

The discount rate used to measure the total pension liability at December 31, 2023, was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

<u>Illinois Municipal Retirement Fund</u> (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended December 31, 2023, the District recognized pension income of \$430,965. At December 31, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

	-	Deferred utflows of	_	eferred flows of
	R	esources	Resources	
Difference between expected and actual experience Changes in assumption Net difference between projected and actual earnings on pension plan investments	\$	176,804 4,787 757,274	\$	7,002
•				
TOTAL	\$	938,865	\$	7,002

Amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

Year Ending December 31,		
2024 2025 2026 2027 2028 Thereafter	\$ 247,78 284,64 500,49 (101,064	7 9
TOTAL	\$ 931,86	3

<u>Illinois Municipal Retirement Fund</u> (Continued)

Discount Rate Sensitivity

The following is a sensitive analysis of the net pension liability (asset) to changes in the discount rate. The table below presents the net pension liability (asset) of the District calculated using the discount rate of 7.25% as well as what the District's net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

	Current										
	19	% Decrease	Di	scount Rate	1	% Increase					
	(6.25%)			(7.25%)		(8.25%)					
Net pension liability (asset)	\$	1,284,119	\$	(542,794)	\$	(1,970,796)					

# 8. OTHER POSTEMPLOYMENT BENEFITS

The District provides continued health insurance coverage at the active employer rate to all eligible employees in accordance with Illinois statutes, which creates an implicit subsidy of retiree health insurance. Former employees who choose to retain their rights to health insurance through the District are required to pay 100% of the current premium. However, no retired employees have chosen to stay in the District's health insurance plan. Therefore, there has been 0% utilization and, therefore, no implicit subsidy to calculate in accordance with GASB Statement No. 75, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. Additionally, the District had no former employees for whom the District was providing an explicit subsidy and no current employees with agreements for future explicit subsidies upon retirement. Therefore, the District has not recorded any postemployment benefit liability as of December 31, 2023.

#### 9. CONTINGENT LIABILITIES

# Litigation

The District is involved in lawsuits arising out of the normal course of business. It is rigorously defending these suits, as it believes it has a meritorious defense against the claims. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the District's attorney that the resolution of these matters will not have a material adverse effect on the financial condition of the District.

# 10. JOINTLY GOVERNED ORGANIZATION

The District, seven other contiguous park districts and three municipalities have entered into a joint agreement to provide cooperative recreational programs and other activities for handicapped and impaired individuals. Each agency shares equally in the South East Association for Special Parks and Recreation (SEASPAR) and generally provides funding. The District contributed \$208,377 to SEASPAR during the current fiscal year.

### 11. LESSOR DISCLOSURES

# Office Space (Lessor)

In 2014, the District entered into an agreement with SEASPAR to lease a portion of the District's office space to SEASPAR for a 30-year period. In accordance with the terms of the contract, SEASPAR contributed \$200,000 to the construction costs required to ready the space for use. The terms of the agreement specify that this \$200,000 is recognizable over a ten-year period and if the District terminates the lease that a pro-rated portion of funds will be returned to SEASPAR. In accordance with GASB Statement No. 87, *Leases*, the District reported \$20,000 as deferred inflows of resources at December 31, 2023.

# 12. SUBSEQUENT EVENTS

On February 15, 2024, the Board of Commissioners approved Ordinance 24-02 providing for the issuance of \$1,397,000 Taxable General Obligation Limited Tax Park Bonds, Series 2024, for the building, maintaining, improving and protecting the existing land and facilities of the Park District. Payments will be due in semi-annual installments with interest ranging from 4.65% to 5.80%, with the bonds maturing on December 15, 2025.

Notes to Required Supplementary Information

The information presented was determined as part of the actuarial valuation as of January 1 of the prior fiscal year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percent of pay; closed and the amortization period was 20 years; the asset valuation method was five-year smoothed fair value; and the significant actuarial assumptions were an investment rate at 7.25% annually, projected salary increases assumptions of 2.75% to 13.75% compounded annually and postretirement benefit increases of 2.75% compounded annually.

#### **Assumption Changes:**

- 2015 changes in assumptions relate to investment rate of return, retirement age and mortality rates.
- 2016 changes in assumptions relate to retirement age and mortality rates.
- 2017 changes in assumptions relate to inflation rates, salary rates and mortality rates.
- 2018 changes in assumptions relate to the investment rate of return.
- 2020 changes in assumptions relate to salary rates, price inflation, retirement age and mortality rates.
- 2023 changes in assumptions relate to mortality and other demographics.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

# NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

December 31, 2023

### 1. APPROPRIATION

Appropriated amounts for the governmental funds and Enterprise Fund are adopted on the modified accrual basis, which is consistent with GAAP except for the Enterprise Fund. The appropriation is prepared by fund and object. Transfers between objects require approval of the Board of Park Commissioners. The legal level of control (i.e., the level at which expenditures may not legally exceed appropriations) is the object level for the General Fund and at the fund level for all other funds. No supplemental appropriations were made during the year. No appropriation was adopted for the Paving and Lighting Fund.

The District follows these procedures in establishing the appropriation data reflected in the financial statements.

- a. Prior to March 31, the District's Director submits to the Board of Park Commissioners a proposed appropriation and operating budget for the fiscal year commencing January 1. The appropriation and operating budget include proposed expenditures and the means of financing them.
- b. Public hearings are conducted to obtain taxpayer comments.
- c. Prior to March 31, the appropriation is legally enacted through passage of an ordinance.
- d. The Board of Park Commissioners is authorized to make transfers between departments within any fund not exceeding in the aggregate 10% of the total appropriated amount in the fund.
- e. All appropriations lapse at year end.
- f. Appropriation amounts are as originally adopted by the budget and appropriations ordinance.

### 2. FUNDS IN EXCESS OF APPROPRIATION

Expenditures exceeded appropriation in the IMRF Fund by \$16,325.

# COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

### MAJOR GOVERNMENTAL FUNDS

### **DEBT SERVICE FUND**

The Debt Service Fund accounts for the accumulation of funds that are restricted or assigned for repayment of various general obligations bond issues where repayment is financed by an annual property tax levy.

### **CAPITAL PROJECT FUND**

The Capital Projects Fund accounts for financial resources restricted, committed or assigned for the acquisition or construction of major capital expenditures not being financed by the proprietary fund.

### NONMAJOR GOVERNMENTAL FUNDS

### SPECIAL REVENUE FUNDS

### LIABILITY FUND

The Liability Fund is used to account for expenditures related to the District's liability insurance program. Financing is provided by a restricted annual property tax levy.

### **MUSEUM FUND**

The Museum Fund is used to account for resources restricted or assigned to the operation and maintenance of the Museums at Lisle Station Park. Financing is provided by a restricted annual property tax levy and assigned charges for services.

### **IMRF FUND**

The IMRF Fund is used to account for the collection of funds from IMRF participants and the subsequent payments to the state pension program. Financing for the District's contribution is provided by a restricted annual property tax levy.

### **AUDIT FUND**

The Audit Fund is used to account for resources required to pay costs associated with the District's annual financial audit. Financing is provided by a restricted annual property tax levy.

### PAVING AND LIGHTING FUND

The Paving and Lighting Fund is used to account for resources restricted for costs associated with paving and lighting of district property.

### SPECIAL RECREATION FUND

The Special Recreation Fund is used to account for resources restricted for costs related to the District's participation in SEASPAR. Financing is provided by a restricted annual property tax levy.

### SOCIAL SECURITY FUND

The Social Security Fund is used to account for the collection of funds from Social Security participants and the subsequent payments to the Federal Government. Financing is provided by a restricted annual property tax levy.
